

Along with our partners Embassy Demolition Contractors, we are able to undertake all aspects of demolition work.

We have a wealth of experience and knowledge in all areas, including dismantling, strip out, asbestos removal, site clearance, fencing, piling and bulk basement excavations.

Are you a developer looking for a one stop shop to demolish, crush, recycle and site clearance then J O'Doherty and Embassy Demolition combined are your solution. One of our core services we provide to the developer is demolition, waste management, bulk excavations, piling attendance and piling mat installation handing them back their site ready for construction.

Our large fleet of modern plant and equipment includes excavators ranging from 5 tonne to 55 tonne high reach, mobile crushers, screening plants, loading shovels, skid steer loaders and generators.
