

JO'Doherty was formed in 1987 by James O'Doherty who saw a gap in the market to provide a skilled service to the building and construction industry. Starting out as a single owner driver, his vision was to provide absolute reliability of quality and service.

Two decades later, this ethos remains throughout J O'Doherty, along with a commitment to developing and maintaining the highest standards of care to enhance the environment and prevent pollution.

In 2007, J O'Doherty welcomed Embassy Demolition Contractors into the organisation, enabling us to offer a one-stop shop for demolition, haulage, waste transfer, recycling and skip hire.

As we continue to expand and grow, we remain a family business with our clients' needs and satisfaction at the heart of everything we do.
